Re: Recommendations regarding intersection of Bronson and Franklin

Dear Ms. Shen:

Please find attached the minutes of the Hollywood United Neighborhood Council's March 10 Public Safety & Transportation Committee meeting, which were approved at our Board meeting this Monday, March 17, 2014. The meeting was attended by numerous members of the Oaks Homeowners Association, as well as several residents of Franklin Village, which surrounds the intersection. We were pleased that a great deal of common ground was found around ways to improve the intersection of Franklin and Bronson for improved traffic flow.

For expedience's sake, we have separated the ideas agreed upon into two categories, one to be acted upon soon and the other for future consideration. We ask that you please look into these suggestions at your earliest possible opportunity as we believe that they will go a great way toward reducing current congestion levels. In the future, we will be looking at the use of parking by valets along the 5900 block of Franklin and how traffic might move more smoothly through that section of roadway. We also may suggest locations for new meters.

The Council office was present at the meeting and can provide confirmation about the wide agreement that we were able to obtain. We hope to use this model in the future to provide the City with advice on such issues.

Thank you,

Susan Swan\*  
President  
Hollywood United Neighborhood Council

Erik Sanjurjo\*  
Vice President  
Hollywood United Neighborhood Council
